

Andreia Valdez

Service & UX/UI Designer

I've always been drawn to solving problems, it started with puzzles (which I still enjoy) and evolved into design. Throughout my career, I've applied my visual culture and design skills across different contexts, from film industry to public sector, always focused on creating solutions that are useful, clear, and authentic.

EXPERIENCE

SERVICE DESIGNER & CONTENT MANAGER

2025 - PRESENT

ARTE - Agency for the Technological Reform of the State

Academia Portugal Digital plays a key role in scaling digital skills across Portugal, supporting more than 50.000 certifications in digital areas, the creation of over 120 MOOCs (Massive Open Online Courses), and more than 1 million skills assessments completed through the website.

- Aligned the website with the new Academia Portugal Digital identity, ARTE's visual direction, and design system.
- Improved the website across multiple phases, introducing new features, refining the tone of voice, and incorporating gamification elements to expand its reach.
- Collaborated closely with developers during testing and production rollout.
- Supported communication across social media and citizen service touchpoints.
- Created logos and media kits for projects.
- Adapted multimedia training content for different platforms and audiences, ensuring inclusivity and usability.
- Collaborated with instructional designers and applied UX/UI principles and accessibility guidelines to e-learning content.
